GERMANS RETREAT FROM FRONCHATTACK

Nazi Drive On Warsaw Is Stemmed

Two Polish armies, reported by Germany to have been trapped in their pincer drive into Poland, are reported to have recaptured Lodz and to have reached Warsaw before the jaws of the Nazi pincer could close. Polish authorities claim that the Polish advance on Warsaw has been thrown back by the steel defence thrown around the city by the Polish army.

British Warships, Airplanes Destroy Several Nazi Subs

LONDON, Sept. 15.—The ministry of information announced today that "a number" of German submarines have been destroyed by patrols of British destroyers and airplanes. The U-boat survivors were rescued and captured wherever possible, the ministry said.

The following communique was issued:
"His Majesty's destroyers, patrol vessels and aircraft have been carrying out constant patrols over wide areas in search of enemy U-boats. Many attacks have been made and a number of boats have been destroyed. Survivors have been rescued and captured when possible."

"Smaller" activity—as in the first Great War—is again being employed by Great Britain and France as a basic strategic weapon in the fight against German submarines. The policy of suppressing the submarine war is being carried out and refusing to disclose the methods used.

Russia, Japan Peace

MOSCOW, Sept. 15.—Soviet Russia and Japan were reported to have reached an "armistice" today in their quarrel on the Manchukuo-Mongolian border. Some observers expected the move to lead to the signing of a non-aggression pact between them.
Japanese Ambassador Shigenori Togo and Foreign Commissioner Yachiaki Motoki were said by a usually unimpeachable source to have agreed upon an "immediate cessation of hostilities" in a four-hour conference.
They will meet again tomorrow, after which a communique will be issued, it was said.
Germany has been trying to effect a reconciliation between Moscow and Tokyo. The signing of the German-Soviet non-aggression pact August 24.

Premier Aberhart Makes Appeal For Public Co-operation

Appealing for co-operation of all in "removing from the world one of the greatest menaces to true democracy that has arisen in the last quarter of a century," Premier William Aberhart, in an address on Thursday night, outlined measures taken by the provincial government in providing effective co-operation with the Dominion and other members of the British Commonwealth of Nations in the present war.

The premier stressed the measures taken to prevent profiteering and urged that such close co-operation be given by all that there should be no need of enforcing punitive regulations for profiteering.

In the course of his address, the premier read a statement which was released on Sept. 8 and which was printed in The Bulletin of that date. With the exception of that statement, the premier's remarks on Thursday were as follows:
"Your government feels that it is quite important that it express a few words of explanation to you. I hope you will understand that I have to say your closest consideration so that there may be no misunderstanding."
In the first place it is necessary that there should be no doubt in the minds of the people of Alberta in regard to the clear and definite stand.

Again Subjected

For an hour the regimental band for aeriel tundra, blue trousers with red stripes and black caps played to hundreds of standees and passers-by. Never has the band of the Edmonton Regiment played with more enthusiasm and won more applause from its audience than on Thursday.
Grand old army tunes were played. Appropriately, the place of honor was given to Colonel By's march, undoubtedly the most popular of the war time marches. As the band commenced this tune, it marched over the top of the corner of 100th avenue.

Canuck Aviators Raid Kiel

By J. F. SANDERSON
Canadian Press Staff Writer
LONDON, Sept. 15.—A saga of the skies in which Canadians played their part was related to the world last night in the first eye witness accounts of the Royal Air Force bombing raids on Wilhelmshaven and Kiel the day after Great Britain entered the war.

Defying blinding rain-storms and the concentrated fire from Germany's most heavily armed fortresses, British planes skimmed the maelstroms of German naval vessels before dropping their bombs—then played hide and seek in thick clouds with Nazi fighter aircraft before heading over the North Sea for home.

Eye witness accounts released by the ministry of information made no mention of the casualties. It was learned from official quarters, however, that British losses were "severe" by Germany. (The German news agency claimed Sept. 5 that Nazi anti-aircraft gunners shot down five of 15 planes which took part in the raid.)

Names of Canadian airmen taking part in the raids were not disclosed but the first flight of six planes was led by a Canadian pilot, and a German naval station on the coast halfway between Wilhelmshaven and Kiel was guided by a Canadian navigator officer.

At Wilhelmshaven the British raiders dropped at least two bombs in German warships, possibly the pocket battleship *Goeben*.

The general staff reported a local offensive toward Trier had failed, and strong positions near the junction of the French, German and Luxembourg frontiers.

The offensive also failed in the area about 25 miles within Germany.

The communiqué also indicated the French line facing Saarbrücken was moving slowly toward the city.

The advance in the Sarre region, the communiqué said, gave the French several positions after five days of fighting.

The communiqué also said the French were attacking in the sector by a German offensive movement.

BERNE, Sept. 15.—The Swiss Telegraph Agency in a Moscow dispatch today said high Soviet sources deny that Russia intends to "intervene" in any fashion whatever in the German-Pole war.

Newspapers were cautious in commenting on alleged Moscow press reports against Poland.

Speaking of a Russian newspaper's criticism of Poland's social structure the Journal De Geneve said:

"This indictment strangely resembles those Hitler used against the Czechs and Poles before attacking their sovereignty. It is an indication that a new plan for the partition of Poland is being spread by the Berlin and Moscow diktators when they signed their non-aggression pact."

The cynicism of the Soviet is limited. They have attacked independent states and asked them to the U.S.S.R. against their given word.

DEFESTED YORK

"They have expressed by terror the result of these nations against a common enemy."

"And these are the people who present themselves before the world as protectors of the oppressed."

The Courier De Geneve said the Soviet source would be "if there were not perceptible behind Moscow's policies at an hour when Poland is struggling against German aggression, the intention of saving in the end."

After a similar trial is the Soviet Union plan?"

British Newspapers Discuss Prospects

LONDON, Sept. 15.—British newspapers today discussed the prospects of Soviet intervention in Poland.

The judge from the tone of the "official press" said the correspondent of the Daily Herald.

"The Soviet government has indicated a strong hostility and a well-defined policy."

And indeed, many observers in London drew the deduction that it is a promise to active co-operation with Germany against Poland.

The diplomatic correspondence of the News Chronicle said that the influence of the independence of the Soviet Union is a factor in the part with the Soviet Union in granting Poland refuge.

The communiqué also said the French were taking the same ground and pushed on to an unqualified advance.

Diplomats Speculate On How Long Balkans Will Remain Neutral

BUDAPEST, Sept. 15.—Hungary's dramatic refusal to join the Versailles treaty, her refusal to proclaim neutrality and her motive she would "stand firm until the very last moment" to protect her independence caused diplomatic speculation today to speculate as to how long the Balkans would remain neutral.

Foreign Minister Count Csaky's foreign affairs committee was considered of prime importance in view of the belief of well-informed observers that on Hungary's attitude depends the continued peace in Europe. Little nations have standing aloof from war.

DECLARATION NECESSARY

Also giving much speculation was his declaration that the situation of the Hungarian minority in Romania was "unsatisfactory" and that the government was "drawn on already occupied regions of Poland for supplies with which to wage war against France and Great Britain in the west."

Premier Aberhart Appeals For Co-operation As He Outlines Acts To Prevent Forms Of Profiteering

Continued from Page One

taken by the Alberta government in the war situation, it is efforts to, for that matter, as it affects Canada we are convinced that the stand reflects the opinion of the majority of our people.

On Monday, September 4—that is, to say, at the earliest date possible after Great Britain, in accordance with her solemn pledge to Poland and France, declared war on Germany, the Alberta cabinet met with the federal Social Credit members of parliament to discuss the grave situation.

Following this meeting, I issued a statement to the press in behalf of both the provincial government and the federal Social Credit members of parliament.

"The Premier here read his statement. It was allowed to draw your attention respectively to the main points in this statement."

May I be allowed to draw your attention respectively to the main points in this statement? To begin with the provincial government and the federal Social Credit members took the incongruous stand that in the present conflict Canada should give the Mother Country the most effective support possible.

CONSPIRACY WEALTH

Then, in accordance with the stand which we have consistently taken, we reiterated that under war conditions the resources of the nation should be organized in such a manner as to effect the greatest possible equalization of sacrifice.

To this end we set out clearly that the concentration of money and wealth should be put into effect before the concentration of mass power could even be considered. In this we go further and state that until money and wealth have been concentrated no man should be asked to risk life and limb on the basis of the greatest possible equalization of sacrifice.

We are opposed to the concentration of mass power until there is concentration of money and wealth. This is a fact which we repeat at the same time.

Next our statement dealt with the well-known phrase: "Concentration of money and wealth." This is a fact from which needs clear definition at the present time.

WHAT IT MEANS

Obviously the concentration of money and wealth does not mean the wholesale and general expropriation of all property, private and corporate, by some bureaucratic central authority. We are fighting Hitlerism. It is our definite determination as Mr. Chamberlain says, "to exterminate that philosophy from the world. We certainly would not desire to have it inflicted upon us in another form, in our own way."

What we believe that the people want is the concentration of the financial system of the country to the aid for the national needs and to control effectively finance, industry and commerce in the interests of the general public and not in the interests of a privileged few.

This would involve at once the prevention of unwarranted profiteering and the appropriate personal sacrifice by all to meet the demands which the war will inflict upon the nation.

I trust that you noticed the specific proposals submitted.

ONTARIO WILL CO-OPERATE IN WAR INDUSTRY

Legislature To Consider Wartime Measures At Special Session

TORONTO, Sept. 15.—Ontario residents will have war problems brought closer home next week when the provincial legislature meets in special session Tuesday. Called originally to redraft inheritance tax legislation, the session will also deal with wartime legislation.

A war industries organization bill will be introduced by Premier Hepburn, authorizing a non-partisan committee which will be empowered to co-operate with Ontario industries in turning out war supplies.

ASSIST ORGANIZATION
The committee will also have a right to agriculture, being authorized to assist in organization of production along lines most suited to meet the allies' needs. It will have power to control labor shortages in both farm and factory.

Conservative leader George Drew attended a meeting of the cabinet yesterday and participated in discussion of next week's legislation. He promised full co-operation with the government, but disclaimed he had any intention of entering cabinet.

Premier Hepburn said he would continue to confer with the opposition leader.

Already war has affected Ontario in many ways. Army troops patrol the big provincial highway, electric plants, industries and homes. A familiar sight in city and town, prices of household commodities have risen. Most of the war problems lie with the Dominion authorities, but Ontario has pledged full support.

During the first great war, the province made a contribution of men and munitions to the Motherland and a military unit was sent up to Kent England. Now, however, Premier Hepburn has stated his belief all activities should be centralized at Ottawa.

"Sparing" prices of materials, according to Highway Minister T. B. McQueen, has halted all construction work on Ontario highways, but maintenance work will be continued. With European travel almost impossible, McQueen believes the province will benefit through increased tourist business from United States.

Another war problem is the expected reduction in provincial revenue because of the special 20 per cent surtax levied on farms by the Dominion in its wartime budget. Under the provincial income tax, payments to the federal government are exempted.

UNEMPLOYMENT IN JULY DOWN FROM YEAR AGO

OTTAWA, Sept. 15.—Unemployment in Canada during July fell four per cent from the previous month and was 37 per cent lower than the same month of 1938, according to a report issued Thursday by Labor Minister Rogers.

Preliminary figures showed the grand total of all classes of persons in urban and agricultural relief amounted to 856,000.

Non-agricultural relief was up 100,000 from June, but 7.4 per cent below 833,000 persons a year ago. In July 1938, 100,000 persons were in urban and agricultural relief, and their dependents receiving a combined 270,000 persons, or representing decreases of 4.2 and 20 per cent. Of this total on agricultural relief, 244,000 were located in the province of Saskatchewan, the report said.

"Unemployed but fully employed" persons on relief decreased 13 per cent from the previous month to 140,500 but was 63 per cent higher than the same month last year.

War Service Body Created Thursday

By United Church
TORONTO, Sept. 15.—An anti-war service committee was created Thursday by the subcommittee of the general council of the United Church of Canada to guide the church in the ministry of service during the war.

Duties of the committee include the hearing of instructions from United Church congregations in their endeavor to give spiritual aid such as fishing and other articles. The committee will make representation to the federal government with regard to chaplains for service at home and abroad.

Dr. Rev. Dr. John W. Woodside of Ottawa, moderator of the United Church of Canada, was named honorary chairman of the committee, while Rev. Dr. Harold Young of Toronto was chairman.

Ontario Premier To Attend Funeral Of Athens Victim

TORONTO, Sept. 15.—Premier Mitchell Hepburn announced Thursday he would attend the funeral of 16-year-old Margaret Mary Hamilton, who died on board the rescue ship City of Flint, in the torpedoing of the liner Atlantic City Thursday night. Dr. J. J. Simpson, Ontario minister of education, and his deputy, Duncan McArthur, announced their intention to attend the funeral at Hamilton Saturday.

The flag on the staff of the Ontario legislative buildings and the flag on Hamilton city hall were placed at half mast.

New Recruits Showing Real Class

Here is a squad of recent recruits to the Edmonton Regiment, receiving their first lessons in marching. It's a lot different from sauntering along the street, but they are "snapping into it" with a will and if you don't think so just go and try it. If you saw these same men in the church parade on Sunday you would notice what a difference just a few drill periods make.

Speculation Hungary May Make Territorial Demands on Rumania

BUDAPEST, Sept. 15.—Speculation on Hungary's territorial claims on Rumania was intensified last night with a statement by Foreign Minister Count Czakó who declared the situation of the Hungarian minority in Rumania was considered serious.

Count Czakó told the parliamentarian army committee Hungarian claims on Rumania were of neutrality in the war "neutrality" since any declaration of that sort only could complicate our national life in case of a long-term war.

His remarks were made yesterday by Count Teleki, Hungarian prime minister, who declared his nation could not enter into adventures in her present difficult geographic position.

PROFITEERING IS PREVENTED BY FRENCH LAW

PARIS, Sept. 15.—The French government announced last night it would place taxes perhaps as high as 100 per cent on business firms to prevent war profiteering.

A decree, which appeared in the official journal Thursday, permits the head of a business, an individual or stockholders to take not only "normal remuneration for service."

On profits above that, a heavy sliding scale excess profit tax goes into force which may reach 100 per cent.

The only French businesses exempted are exporters.

Winnipeg To Have Recruiting Centre For Air Personnel

WINNIPEG, Sept. 15.—Wing Commander D. Bell-Bray, M.C. of the western air command of the Royal Canadian Air Force at Vancouver, arrived here Thursday to establish a recruiting centre where flying personnel alternations may enlist for active service with the R.C.A.F. Wing Commander Bell-Bray and similar centres are being established at Regina, Saskatoon, Calgary and Edmonton.

NEW METHOD TREAT CANCER IS ANNOUNCED

Treatment Is Reported By Winnipeg Doctor At Congress

By HOWARD Z. BLAKESLEE
Associate Press Staff Writer
ATLANTIC CITY, N.J., Sept. 15.—A new treatment for cancer, of vitamin B₁₂ and other vitamins, was reported to the third international Cancer Congress Wednesday by Dr. J. N. Davidson, a general practitioner of Winnipeg.

He has been working nights in his basement on cancer cases which he got to treating human beings by the method. He said his work pointed toward a possible way of prevention.

He suggested, moreover, that cancer may be a disease like diabetes, which is not cured by the remedies used, but whose progress is arrested as long as the victim lives in comparative health for many years.

COCKTAIL EXPERIMENT
The vitamin idea is not new in cancer treatment. Dr. Davidson's addition came from an experiment with one of the aged cancer cases ever made. The cocktail contained the embryonic blood of a dozen or more chicks from eggs incubated several days.

"Vitamin was added to make it palatable. The cocktails were made, and drunk by a woman over 60 years of age who had several cancers. She was fed a high vitamin diet."

Dr. Davidson said he had seen a cancer patient who had been cured of his cancer, which was large swelling.

'Friendly Talks' Said Preparing for Italy's Neutrality in War

LONDON, Sept. 15.—The Daily Express Independent said today that friendly talks are being held in Rome to prepare the ground for a discussion of Italy's neutrality in the war, representing the Italian government.

The Rome correspondent of the newspaper said these talks have been held since the Italian government, the British ambassador, Andre Franco-Poncet, the French ambassador and Count Galeazzo Ciano, Italian foreign minister.

"I learn that conversations are to begin soon between the British, French and Italian governments about Italy's status as a neutral particularly in the Mediterranean."

The correspondent said that the conversations are being held in Rome, and that the Italian government is unable to handle any large bulk of goods.

"At present Italy sends 25 per cent of her exports, mostly wheat, to Germany and receives 27 per cent of her imports from Germany, mostly coal, steel, electrical equipment and other varieties of fibre."

"The coal comes round by sea from Rotterdam."

"Dispatches from Switzerland have indicated large quantities of coal also are reaching Italy by train since that neutral country."

THREE SHIFTS ANNOUNCED IN EIRE CABINET

DUBLIN, Sept. 15.—Prime Minister Eamon De Valera made three important shifts in the Eire cabinet today.

At the same time new, severe censorship regulations were introduced by the government.

Finance Minister Sean MacEntee assumed the portfolio of industry, the Bureau of Supply, and Vice-Premier Sean T. O'Kelly became minister of commerce.

The Eire government, it was announced, has taken measures to break up the downy clothing shop here May 9 and stealing merchandise valued at \$800.

Further decrees regulated the price of milk and other prime commodities.

TWO NOVA SCOTIA COLLIERIES IDLE

NEW WATERLOO, N.S. Sept. 15.—Two Dominion Coal Company collieries were idle last night after almost 2,000 men walked out earlier in the day in protest against working with alien miners and changes in mine routine. Miners in No. 12 pit refused to work with foreign-born men on grounds of safety.

The other mine No. 16, was laid up Thursday night. It was not clear if the men refused to work on hearing a report the coal face had not been closed off following a smash-up on the pit Wednesday.

Regina to Try New Offensive on Eskimos

REGINA, Sept. 15.—Regina Roughriders, their attack repeatedly reformed in the last 10 days, start the Western Football Conference campaign all over again when they entertain Edmonton Eskimos tonight.

Crushing defeats at the hands of Winnipeg Blue Bombers, and Saskatchewan Roughriders, their former attack and Coach Leo Schwabacher, was placed in complete command of the attacking forces while Head Coach Dean Gifford concentrated on a wobbly line.

Fans who have attended several games here, however, have had change in "Hiders. Schwabacher has changed on lots of interference for the ball carriers, and the Regina forward passers are said to be more instead of the long passes which were so unsuccessful in early games.

All Roughriders regulars with the exception of one man, Harold McLeod, and Jimmy Dick Bell, will start. They will rest up line muscles which have responded to training.
